DIRECTOR

NATIONAL AIDS RESEARCH INSTITUTE,
Indian Council of Medical Research, Department of Health Research,
Ministry of Health & Family Welfare,
Plot No.73, G – Block, MIDC, Bhosari PUNE 411 -026
Phone No. 27331200 , 27331323 Email: nari_establishment@yahoo.co.in

National AIDS Research Institute, under extra-mural funding from Indian Council of Medical Research, proposes to undertake a project to understand the level of knowledge and willingness to use rectal microbicides and oral PrEP by the men who have sex with men. The men who have sex with men (MSM) are vulnerable to sexually transmitted diseases including AIDS. A number of approaches have been applied for developing prevention tools for protecting this population from HIV infection. Two of the important tools are rectal microbicides i.e preparations that may help in preventing transmission of HIV during MSM activity and PrEP i.e. prophylactic administration of anti retroviral drugs to prevent HIV transmission. These are on the forefront of prevention research. Any prevention tool will be most effective only if community adopts it. This study proposes to carry out the qualitative research to understand the knowledge and willingness of MSM community to use rectal Microbicide and oral PrEP. The findings would be useful in prevention program. We are looking forward to bright and committed research workers to carry out this study.

Sr. No.	Name of the Post	No. of post	Age	Essential Qualification & Experience	Desirable Qualification & Experience	Job responsibilities	Salary
