ADVERTISEMENT

Applications are invited from qualified individuals for the following post, available in a project sponsored by the DST, “**Investigation of the molecular mechanism of transcription termination factor, Rtt103, function in genome stability**” (F.No. SB/SO/BB-0045/2013).

Post: Junior Research Fellow

Qualification: Essential: Master’s in Life Sciences or related areas, CSIR/UGC NET qualified. In addition, laboratory work experience with recombinant DNA techniques and handling microbial cultures will be preferred. Otherwise suitable candidates, who have not qualified the NET, may be considered at a lower pay as per the funding agency norms.

Pay: 16,000 plus HRA per month consolidated

Duration: Initially for one year and can be extended upto three years depending upon performance and project extension.

Terms and conditions:

The post is purely temporary.

Hard copies of the applications should be sent to the address given below and should reach on or before **6th January, 2013**.

Application to the post should be accompanied by proof of educational qualifications and clear contact details including valid email ID.

Only suitable candidates will be called for a personal interview. Intimation of date, time and venue of the interview will be via email.

No TA/DA will be paid for the interview.
