CAMPUS PLACEMENT 2016

We are inviting 120 postgraduates to join us in our vision of creating a sustainable change in the public education system. If you have a passion for social change, deep interest in teaching, aspiration to work with teachers, confidence to engage and ideate with government functionaries, come and join hands with us.

Azim Premji Foundation is a not-for-profit organization that is working towards making deep, large scale and institutionalized impact on the quality and equity of education in India, along with related development areas. Today, we work in 7 states and 1 Union Territory with a potential to reach over 3,50,000 schools.

Key aspects of our work include -

Partnering with Government:

We work in collaboration with state governments and engage with teachers, teacher educators and head teachers. We also work with education officials, government functionaries and policy makers at the district, state and national levels.

State and District Institutes:

We have dedicated teams working in State Institutes in the capitals of select Indian states and several District Institutes within these states.

Our Institutes work at the grass-roots level, closely engaging with the government education system.

Our work spans capacity building of teachers, head teachers and other functionaries at the district and state levels. It also involves work on curriculum, assessment, educational leadership and management, policy issues and advocacy at the state level.

The Foundation today, has institutes that are located at Karnataka (Bengaluru, Yadgir, Mandya and Kalaburgi), Rajasthan (Jaipur, Sirohi, Tonk, Barmer and Rajsamand), Uttarakhand (Dehradun, Uttarkashi, Udham Singh Nagar and Almora), Bihar (Patna), Chhattisgarh (Raipur and Dhamtari), Madhya Pradesh (Bhopal) and Puducherry.

At six of our District Institutes, we have established Azim Premji Schools for the specific purpose of demonstration. These schools provide quality and free education to the local community, at costs and constraints similar to that of rural government schools.

Scale and Reach: We have footprints in 45 districts and over 1200 employees.

Campus Programme of Azim Premji Foundation

The Campus Programme of the Azim Premji Foundation offers employment opportunity to fresh postgraduates interested in committing themselves to the systemic improvement of education. It is a one-year, full-time programme enabling people to work and learn in a rural setting with requisite institutional support. This initial year at the Foundation is a combination of fieldwork and academic rigour, enabling the young Associates to challenge themselves, develop deeper perspectives and discover some of the linkages between their classroom learning and practice on the ground.

The campus programme will

- Engage you in ample opportunities of guided classroom teaching
- Enable you to retain an academic alignment through readings/discussions on books/papers
- Enable you to work closely with teachers, to help improve teaching practices
- Need you to develop learning material for children and teachers
- Require you to conduct research on issues related to classroom and teaching-learning processes

Your role at the District Institutes after the campus programme will continue as a member towards helping build teacher capacities in education perspectives, subject content and pedagogical approaches by-

- Participating/conducting workshops, which develop deeper perspectives in education and enhance subject matter knowledge
- Providing on-the-ground support, through direct engagement with teachers in their sphere of work
- Building learning communities of teachers, for peer learning and knowledge sharing
- Relating to school as a system and the systemic elements that impact its functioning
- Understanding the interlinkages of the school with the community and local governance
