## ENGLISH LANGUAGE

**Directions (Q. 71-78): Read the passage carefully and answer the questions given below it. Certain words/ phrases are given in bold to help you locate them while answering some of the questions.**

For any growing nation education is most important aspect in all terms may it be human development or mechanical development, although education comes after hunger but know after 65 years of independence, hunger is not our major problem but

education is. Thus now our politicians need to be qualified and educated. So this leads to a very common discussion that Weather Educational Qualifications for politicians are necessary or not?

Politician should be people with high education because many leadership **attributes** are gained through education. Leaders with no education cannot **cope** up with the change hence it **hinders** country development. Education is necessary

for a leader, for the country's bright future and prosperity. As now a days it is the basic need of a person, but yes, it should not be fixed till a certain level. A leader should be matured, experienced, kind, educated, and should understand people's feelings, thinking, vision etc. And that all comes from education itself and our moral life. ### QUANTITATIVE APTITUDE

36.

$$\frac{112}{100} \times 6500 = \frac{91}{100} \times ?$$

$$\Rightarrow ? = \frac{112 \times 6500}{91} = 8000$$

37.

$$? = 113 + 124 = 237$$

38.

$$(5)^{?+2} = (5)^2 \times (5)^{12} \times (5)^5 = (5)^{19}$$

$$\Rightarrow ? + 2 = 19 \Rightarrow ? = 17$$

39.

$$\frac{58}{100} \times 550 - \frac{?}{13} \Rightarrow ? - 319 \times 13 = 4147$$

40.

$$48 \div 3 \times 4 + 24 = ?$$

$$\Rightarrow ? = 16 \times 4 + 24 = 88$$

41.

$$(12)^? = 12 \times 12 \times 12 \times 12 \times 12 = (12)^5 \Rightarrow ? = 5$$
