Indian Institute of Technology Hyderabad

**M.Tech. Admissions
January 2012
Brochure**

Vision:

Indian Institute of Technology Hyderabad will be the cradle of inventions and innovations. The institute will advance knowledge and scholarship to students in science, technology and liberal arts, and equip them to handle the challenges of the nation and the world in 21st century.

Mission:

To be recognized as ideators and leaders in higher education and research, and to develop human power with creativity, technology and passion for the betterment of India and humankind.

The Institute:

IIT Hyderabad started functioning from August 2008 from its temporary campus located in the Ordnance Factory, Medak district. On February, 27, 2009, on its main campus in Kandi, the foundation stone of IIT Hyderabad was laid by Smt. Sonia Gandhi, Hon'ble Chairperson of UPA. In its first year IITH had B.Tech. programs in Computer Science and Engineering, Electrical Engineering and Mechanical Engineering; with total student strength of 111. Keeping its thrust on research, the Ph.D. program was started in January 2009 and the M.Tech. program in August 2009. Since 2009, our maximum effort has targeted capacity building – particularly faculty recruitment. As of November 2011, IIT Hyderabad has 78 faculty members in 11 departments – more are likely to join soon and the number will grow rapidly. At the same point, IIT Hyderabad has total student strength of approximately 757 – 485 B.Techs., 121 M.Techs., 27 M.Sc. and 124 Ph.D. students. In fact the UG:PG ratio for the students admitted for the 2011-2012 academic year is presently 159:133, which with additional PG admissions in January 2012 will come close to the targeted UG:PG ratio of 1:1 – in tune with the thrust on research and development.

About M.Tech Admissions:

The M.Tech. programmes offered in various disciplines and streams by different departments of the institute are based on the credit system and provide a student with wide choice of courses. Each programme comprises of several core and elective courses and project work.

Each discipline/stream in a department has a faculty advisor to help the students in the choice of academic options for elective courses. Students may be permitted to do their project work in industries and other approved organizations. Students are also encouraged to participate in the research and development projects undertaken by the faculty.

Almost all students desirous of placement are placed in reputed organizations and industries after completing their courses of study.

Only certain 3-year M.Tech. programmes are open for admission in January 2012. At this time, no students will be admitted to 2-year M.Tech. programmes.

➤ **3-year M.Tech degree with Research Assistantship**

- a. Admission based on GATE score and interview.
- b. All selected students are eligible for a monthly stipend for a maximum duration of three years.
- c. All selected candidates are required to perform any assigned work for up to 20 hours per week.
